Investments in this plan are subject to investment risks including the possible loss of principal amount invested. The value of the units may rise as well as fall. Past performance is not necessarily indicative of future performance. As buying a life insurance policy is a long-term commitment, an early termination of the policy usually incurs high cost and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid. It is also detrimental to replace an existing life insurance policy with a new one as the new policy may cost more or have fewer benefits at the same cost.
